# BEYOND THE SURFACE

The places we live in constantly remind us of who we are, what we love, and why. Every surface is a continuous reminder of stories, memories, gestures, gatherings and inspirations, to touch, see and feel.

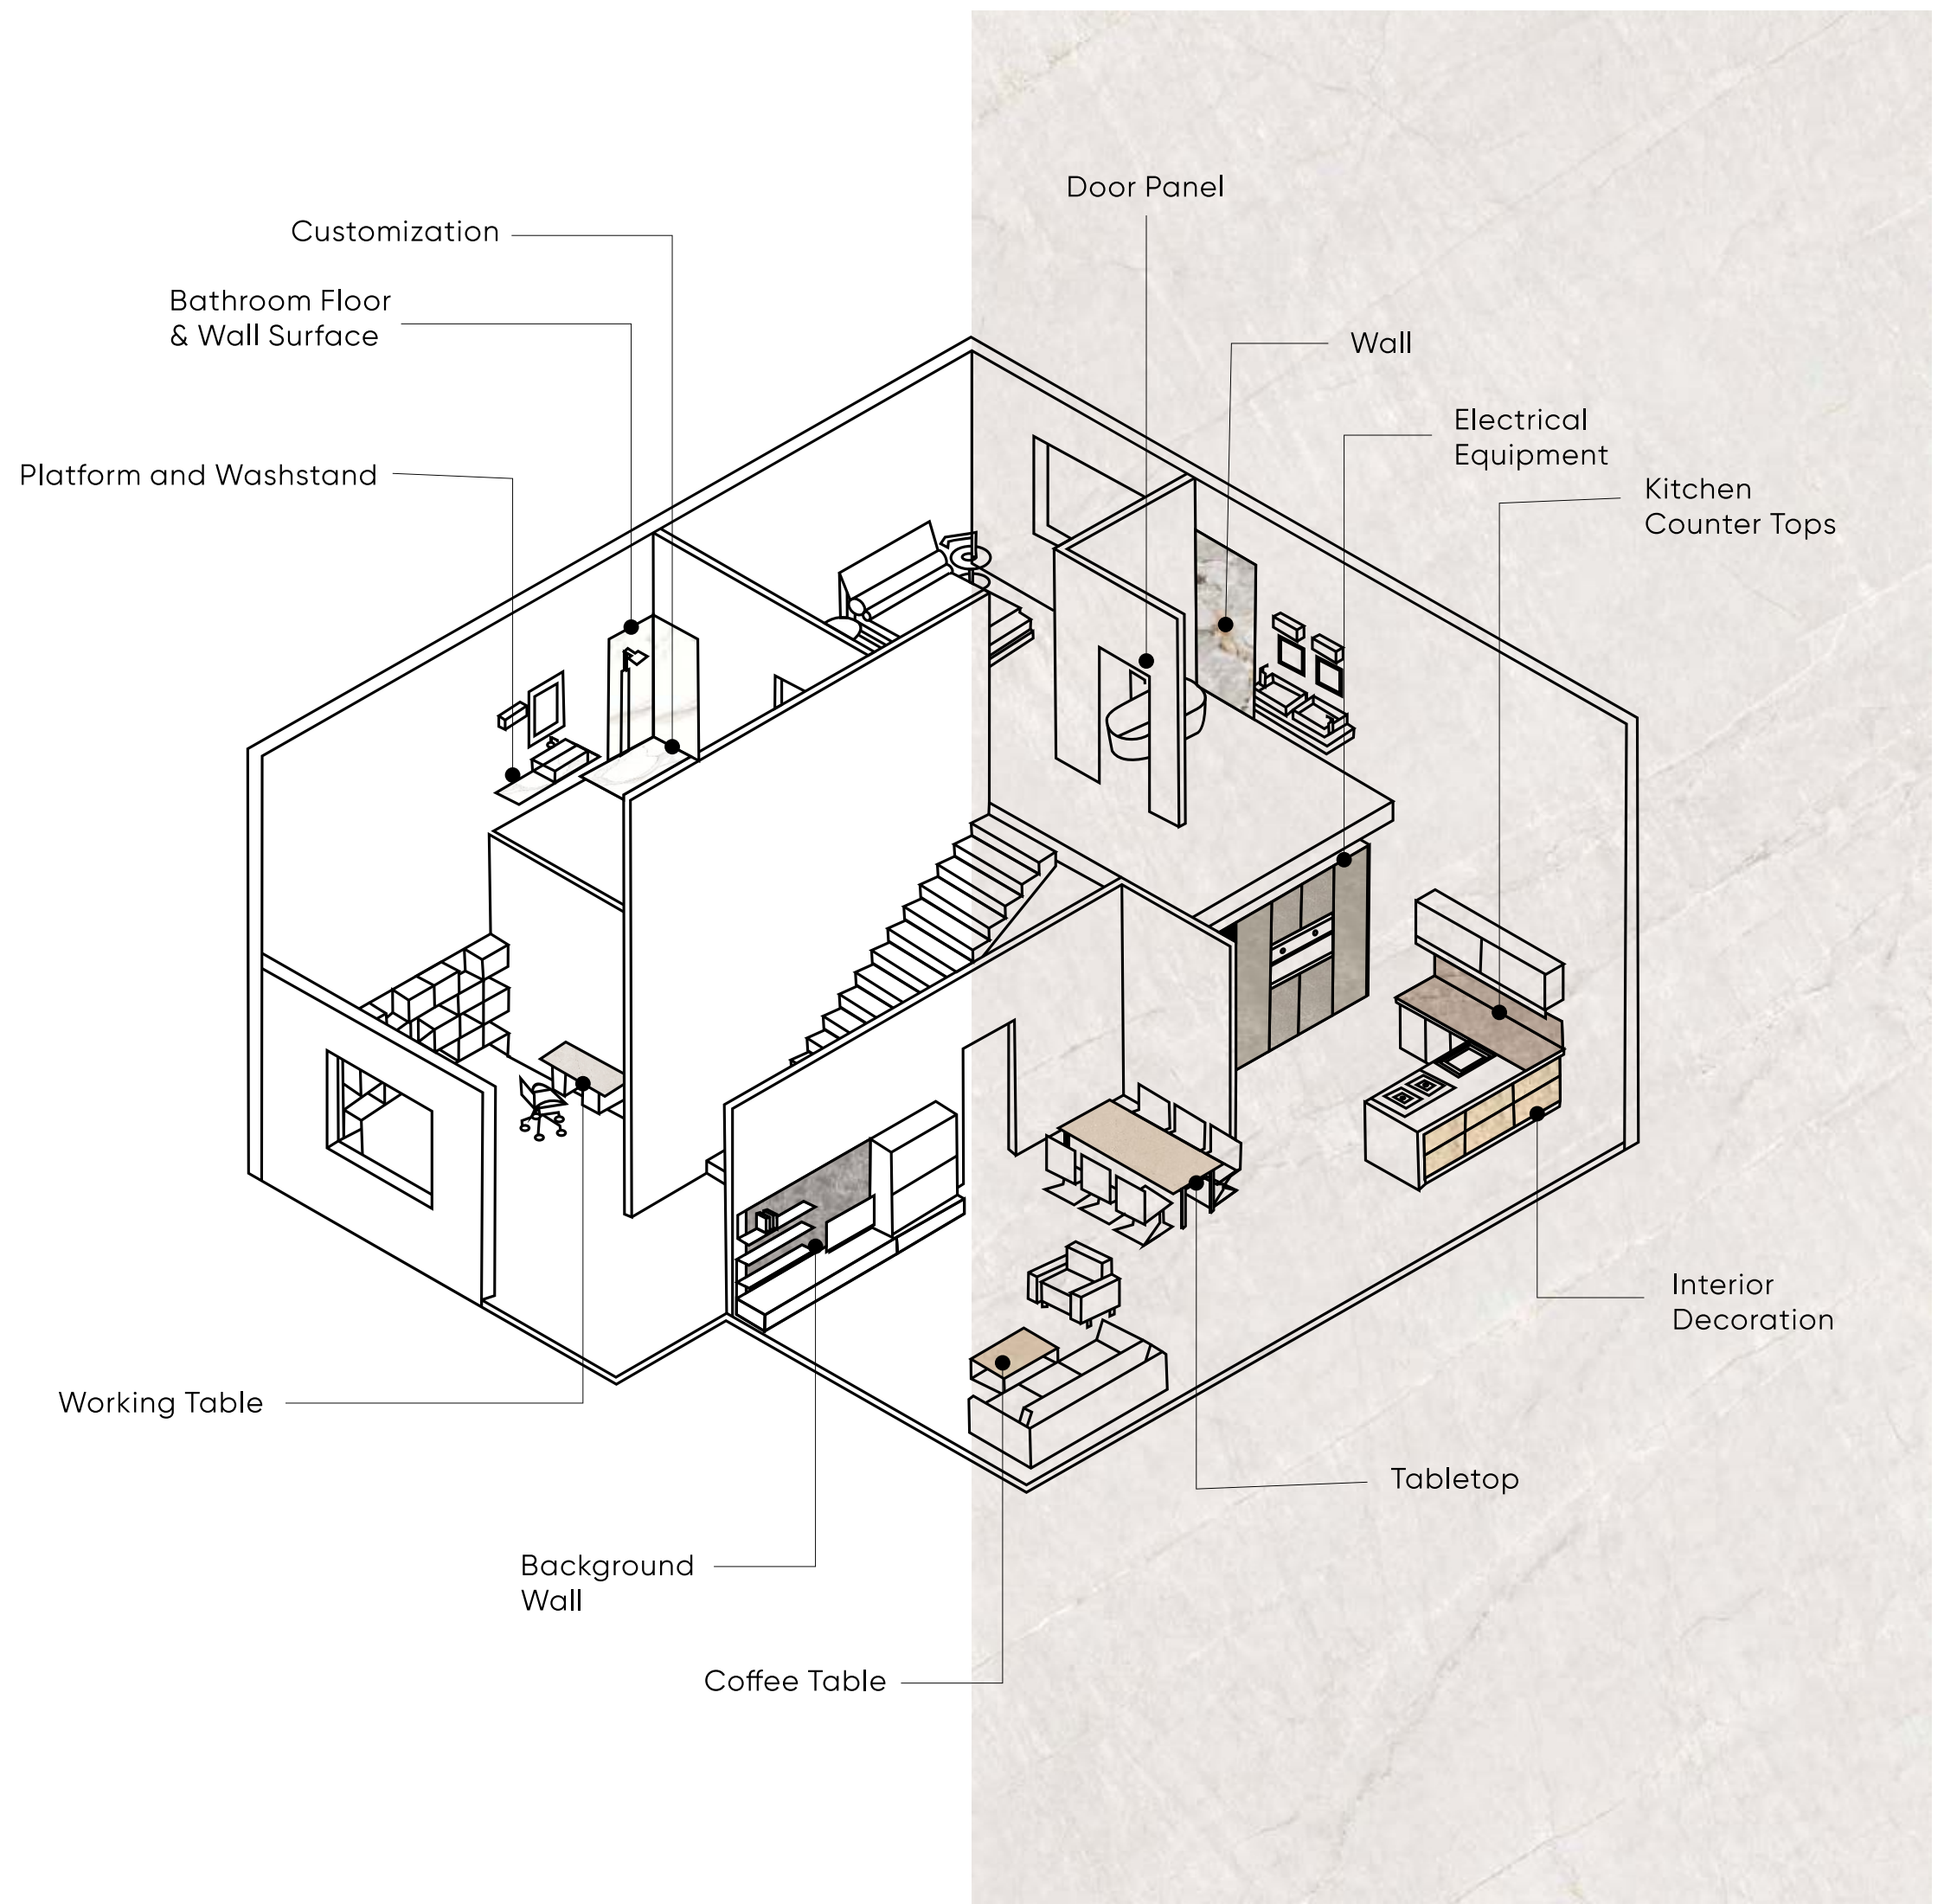

## TRUE TO **NATURE**

protects and preserves our natural heritage. Marmoles World's surfaces are made with innovative technology that uses sustainable industrial processes. This way the integrity of the quarry regions is preserved, operating without harming the community and the environment.

# ENDLESS POSSIBILITIES

Not just floors and walls: Marvel World allows you to use the marble effect in any interior design to create furnishing elements such as tables, countertops, splash guards, and sinks. The quality of Atlas Concorde porcelain tiles guarantees high performance in any use.

# DESIGN TO **NATURE**

Digital technology is used to create textures that coincide perfectly with the printed pattern, leading to some of the most natural looking designs ever to be seen on ceramic tiles.

# SURFACE & TEXTURES

800 X  
1600 MM

With Matt collection we've tried to bring back the charm of time-worn surfaces which when inculcated into your space ends up making it irresistible. It also introduces to your space an immense amount of austere sophistication with its fresh and captivating details.

Our carving collection consists of surfaces whose material is hand-picked and precisely chosen out of the best. It portrays a blend of rustic plus traditional design carved out of technological innovations.

The glossy collection is an ode to the technological excellence of the production process combined with the elegance of the material for the benefits of ceramic tiles, for a stylistic universe with great potential.

Our High Glossy decisively decorates every environment and brings out its charm with its authentic natural character. A distinctive personality, the choice of colors and the matching decorations make each setting – whether commercial or residential unique and memorable.

# COLORS OF THE BEST **NATURAL MARBLE**

The broad colour range replicates the nuances and veins of the original natural material with a high degree of detail. Pure whites with a bright background, inspired by the textures of classic Italian marbles. Warm shades to bring out the sophistication of walls and floors.
